Viewites Witness Exciting Season

The Bay View gridders, guided by an excellent coaching staff and encouraged by solid student backing, won four of eight games to insure themselves of a very respectable fourth place in the City Conference.

The 1967 season began on a sour note as North's Blue Devils defeated Bay View 26-0. This can be accounted for by the fact that the gridders were still adjusting to a new offensive system installed by Coach Elich. The following week the Redcats scored their first victory by completely overpowering the Juneau Pioneers 26-6.

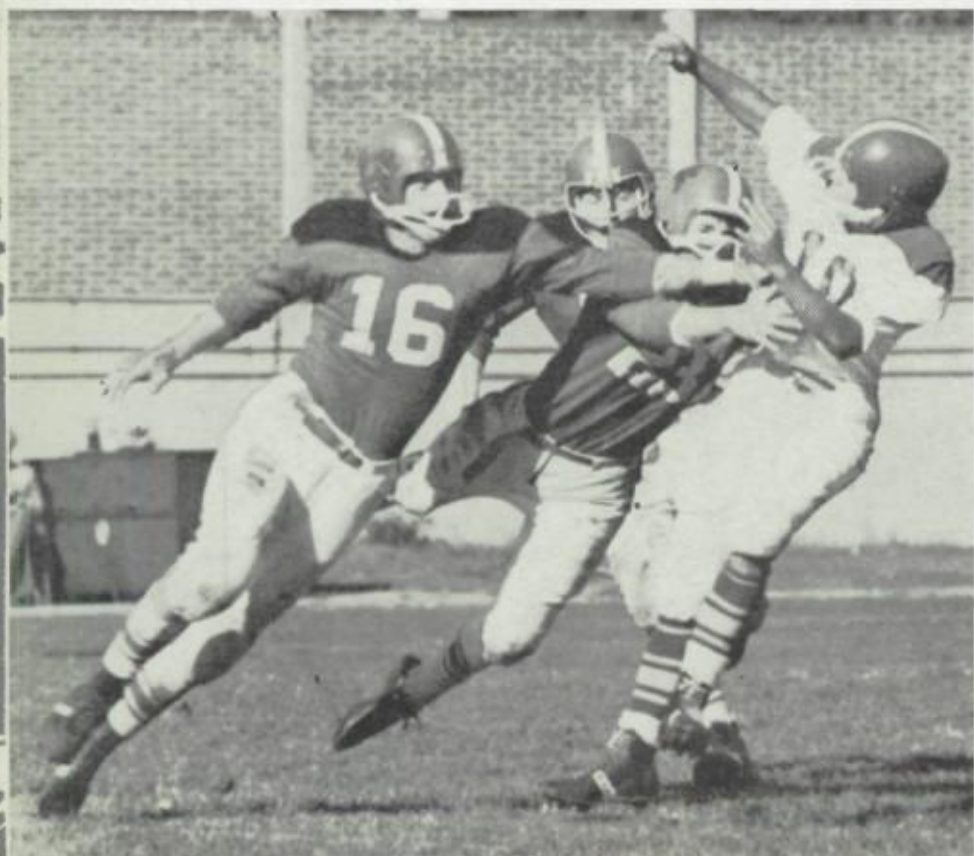

For the Homecoming game the Redcats were pitted against a strong rival in Hamilton. The squad's spirit was soaring as the whole school was cheering them on. Early fumbles, due largely to nervousness, helped Hamilton to a 21-0 lead which they never relinquished.

In the next two games, Coach Elich inspired his players to decisive victories over Lincoln, 63-0, and West, 26-0. In these games, the Viewites, lead by Jerry Lemanski, Frank Jager, and Tom Junemann, displayed superb performances on both offense and defense. The following week the Redcats suffered a 7-6 setback at the hands of arch-rival Pulaski in a real heartbreaker that ended with the Redcats on the Pulaski one-yard line.

The following Saturday the Viewites met the number one team in the State, Boys' Tech. Although defeated 40-6, the Redcats never gave up while playing a much better game than is indicated by the score. The season ended on a bright note as the team routed South Division 15-0. This game marked the third "shut-out" in eight games for the superior Bay View defense which ended the season number one in the city in total defense.

Post-season activities saw Jerry Lemanski named to both Milwaukee All-City teams as well as being named to the second string All-State team. Frank Jager also received recognition as second string All-City fullback.

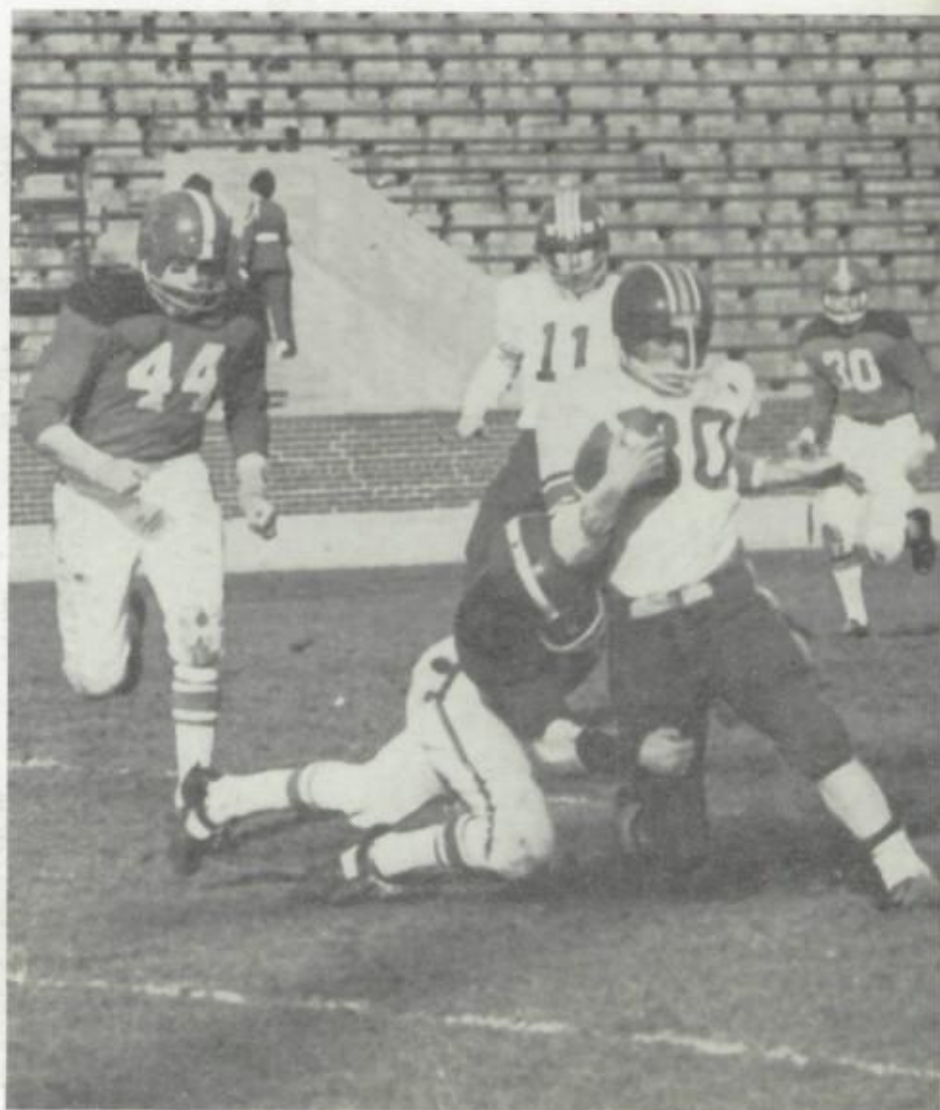

This season was filled with thrills and excitement from the opening whistle in September to the final gun on November 4. The team fought valiantly through all types of weather as well as against tough opponents. While they didn't always emerge victorious, they proved to be one of the most highly spirited teams in the Conference.

Homecoming Happening

It all started Friday with a riotous pep rally staged by members of the faculty. Saturday, the excitement built up as the annual Homecoming car parade proceeded to South Stadium. Disappointment came next as the Redcats lost to Hamilton 21-0. Later that evening couples danced in a psychedelic atmosphere to the music of "The Sounds of Tyme."

STUDENT GOVERNMENT ASSOCIATION

INTER-HIGH REPRESENTATIVES

Evonne Winston, Darrell Elliott

The Student Government Association is a vital organization representing all students. In its twenty-first year, the S.G.A. has provided many services to the students, the school, and the community. Included in the S.G.A. structure are the Assembly, seven officers, a Student Board, Student Court, and several committees.

Among the special activities of this growing organization during the 1967-1968 school year were an anti-vandalism campaign, the presentation of a talent show, the distribution of Christmas gifts to students at Oregon and Wales, and the planning of a local leadership workshop.

Other activities of the S.G.A. included operation of honor study halls and building control, planning homecoming activities, sponsoring the prom, providing instruction for the 10-B's and selling pennants and rings. Cars of all students and faculty members were registered by the Auto Registration Committee, and building ushers were provided for evening programs held in the building. The Student Board acted as a coordinating body for the S.G.A. and met with the administration several times during the year.

Since a wide range of fields is covered by the term "science," the "science" club is divided into several sections: Fishin'-is-Fun Club, Biology Club, Chemistry Club, Physics Club, Photography Club, and Amateur Radio Club.

By permitting students to satisfy their quest for information through the use of school equipment and faculty counseling, the Science Club fulfills its stated goal—to help develop the minds of the future in the hope that they, in turn, will provide a better world in which to live.

WRESTLERS EXPERIENCE REBUILDING YEAR

Bay View's galant wrestling team's season wasn't as successful as was expected. The "grapplers" won only one meet in fourteen attempts. The main cause for these defeats was the ten points they spotted every team by forfeiting two weight classes. This ten point deficit was always too much to recover, and in many cases, was the margin of defeat. Mid-year graduation of three key men including last year's 165 pound City Champion, Frank Jager; forced hard working but inexperienced men into competition. The high note of the season came in the victory over Pius 25-19. The Redcats were led by John Broske, Gary Weber, Tim Gengler and Frank Jager, who all won easily.

This team is a very young one and with the experience gained this year, combined with the excellent coaching staff headed by Mr. Stinson, this team could go far in the City Conference next year.

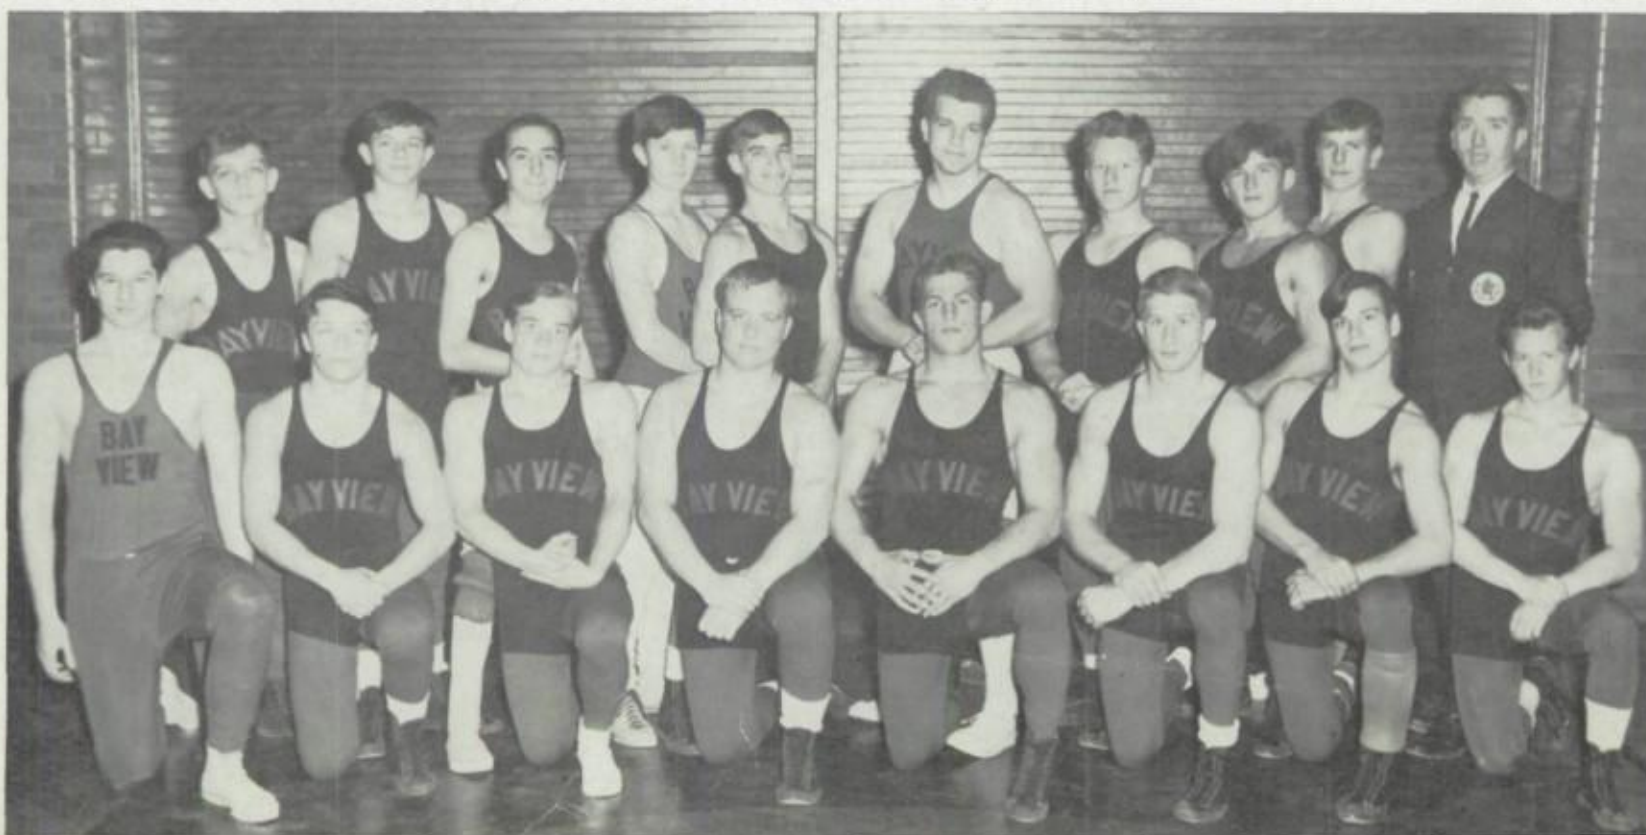

In tournament competition, the Redcats were lead by Tim Gengler and Dan Wallner. Gengler lost a heartbreaker 2-0 to the eventual City champ, while Wallner won two matches to finish a very respectable third place in the 154 pound class.

BASKETBALL OUTLOOK IMPROVES

The school cannot ask for more excitement than that which our cagers gave us the past season in the way of fast action, exceptional skill, and "never give up" attitude. Opening the '67-'68 season the cagers lost to the defending City and State champion, Lincoln Comets. The score was 93-94. The following week the cagers lost to Boys' Tech 82-61, but trounced an outclassed South Division team 72-56. The next two games were played against Marshall and Washington. Although beaten, the Redcats showed great signs of improved teamwork. The Redcats then pounced on Hamilton as they won 74-59. The following night the cagers met Lincoln in a rematch of the first conference game. When the smoke cleared, after a hotly contested game, the Redcats came out victorious by a 93-90 score.

The high-riding Redcats next opponent was North, the first ranked team in the state. Playing their hearts out, the cagers led by three points with two minutes left. A few bad breaks, though, turned the tide in the end, as the team was defeated by the powerful Blue Devils 79-70. After being beaten by West, the Redcats played another "squeaker" against Tech. Again the team lost in the last few minutes because of a powerful Trojan rally.

The cagers rolled over their next three opponents: Juneau 90-51, Pulaski 71-69, and South. The winning streak was finally snapped by a powerful King team 105-77. In conference play, the Redcats ended up in eighth place with seven wins and nine losses. This was quite an admirable season because of the balance and overall strength of the '67-'68 City Conference.

The season ended on a sour note as Bay View lost its first game in tournament action. The cagers met Pulaski whom they had beaten once during conference play. Although the Redcats played well, shooting 50% from the floor on this occasion, they were no match for the hot-shooting Rams who hit well over 55% of their shots.

FINMEN HAVE GREAT YEAR

Bay View's 1968 swim team proved to be the best that Bay View has had in years. Coach Czarapata worked his team hard and his efforts payed off. The swim team had one of the best dual meet records in the city, winning six and losing two. In three triangular meets, Bay View finished first once and second twice.

The season began on a sour note as the finmen were defeated by City Champion Boys' Tech and were nosed out by Pulaski in a triangular meet. Bouncing back powerfully, the Redcats won their next four meets opposing East, Washington, Hamilton and St. Francis. After losing a close meet to Oak Creek, the Finmen came back to defeat North. The Redcats then placed sixth in the city relays, won a triangular meet against King and South, and thoroughly trounced Lincoln 78-6. The team concluded the season by placing seventh in the city meet.

Every great team has its stars, and this one was no exception. Three new school records were set this year. These new records were set by Denis Moenkhaus in the 60 yd. freestyle and the 400 yd. freestyle relay team of Kyle Brunk, Ron Hibben, Mike Kuhagen and Denis Moenkhaus.

GYMNASTS CAPTURE STATE CROWN

Topping last year's gymnastics season would be quite a feat, but the 1967-68 team accomplished it. Under the direction of Coach Hesiak, the gymnasts were undefeated in dual meets. This year's team has all the speed, strength, skill, and coordination that one might expect of the state champion. The gymnasts opened the year by defeating Brown Deer and Milwaukee South. They placed first in a dual meet with East and Juneau. This meet served as a warm-up for their clash with the defending state champions from Marshall. The Eagles proved to be no match for the powerful Redcats as they won hardily. Again the gymnasts flexed their muscles, trouncing Menomonee Falls, Washington, Custer, and Boys' Tech. The Marshall Invitational meet proved to be the only blur on Bay View's otherwise perfect record. The gymnasts had an off day and were defeated by one-half point at the hands of Marshall.

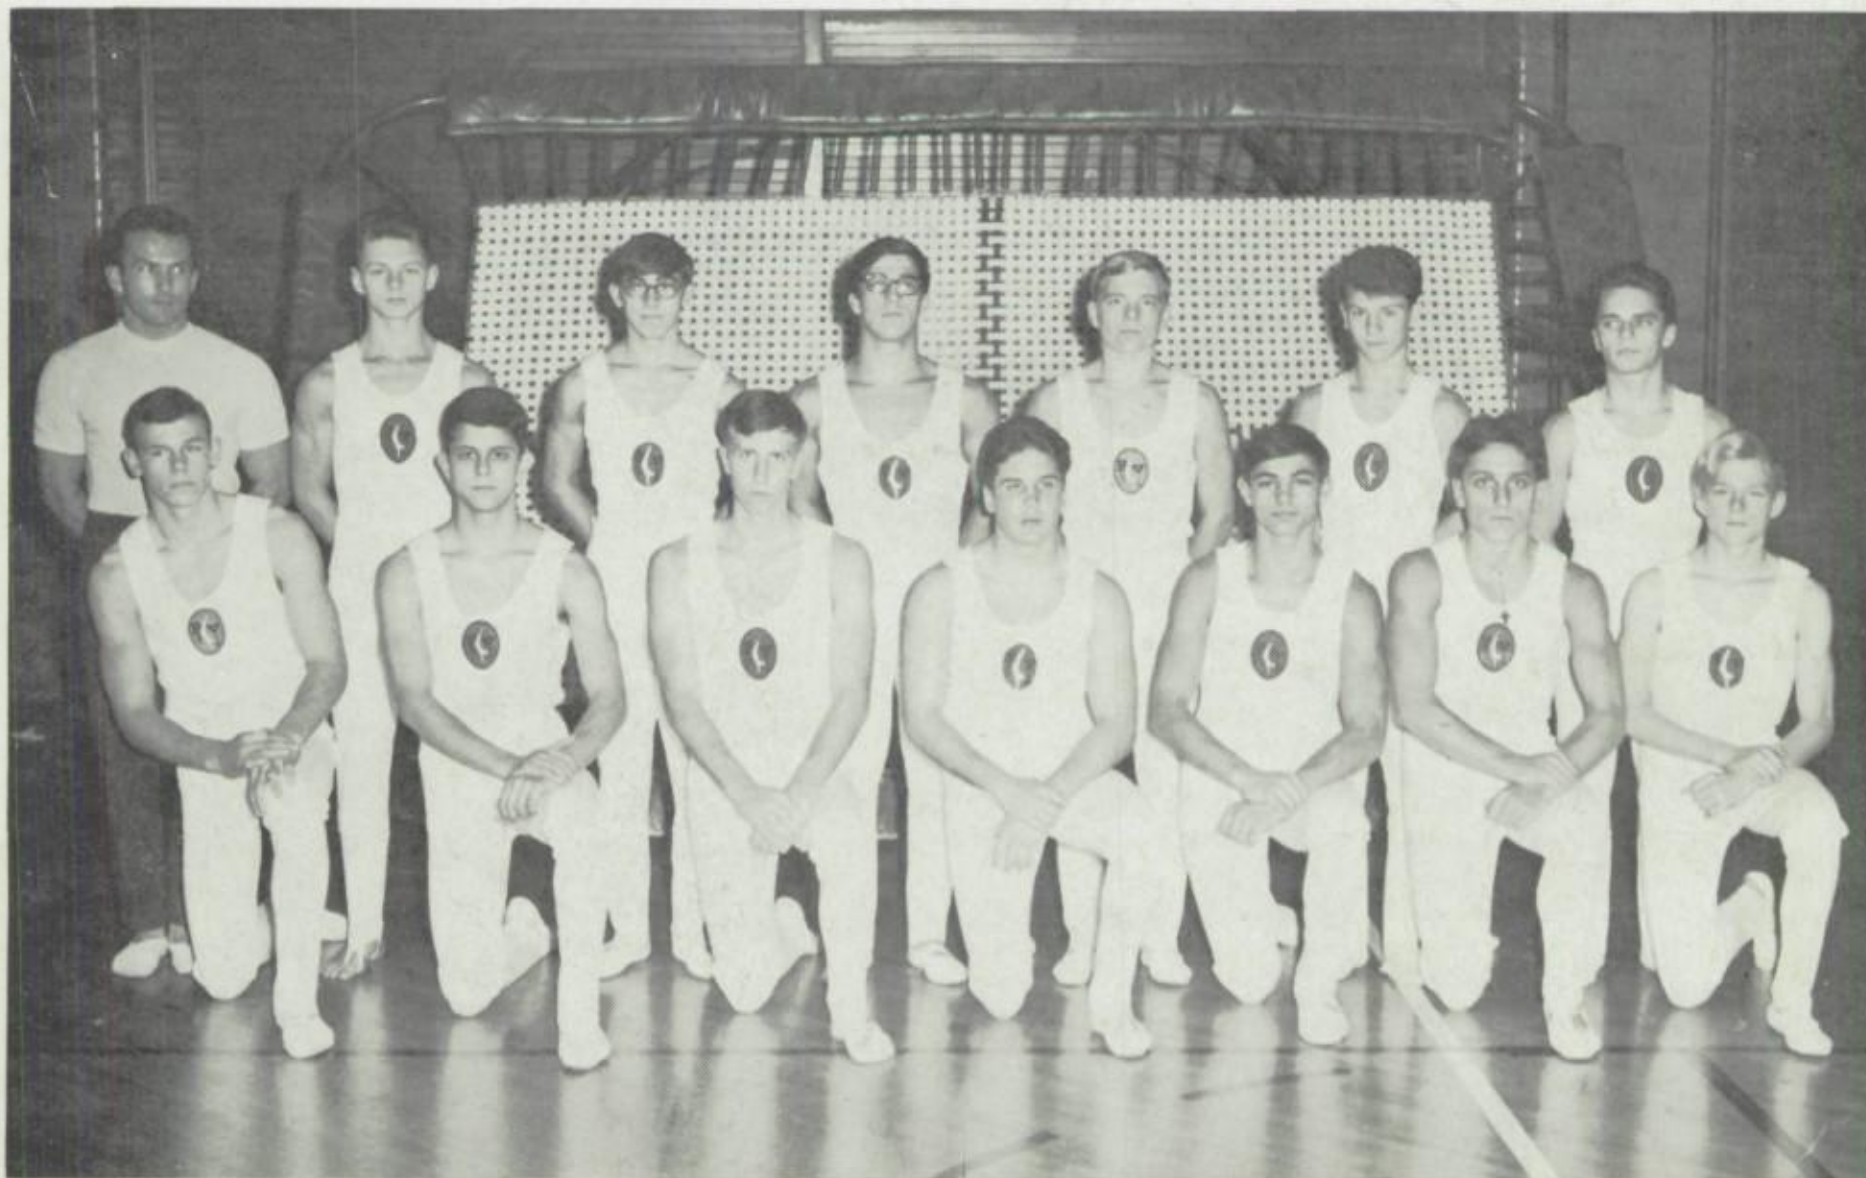

After defeating Whitnall, the Redcats, with revenge in their hearts, prepared to meet most of the top ranked teams in the Menomonee Falls Invitational. In this meet the Redcats avenged their earlier defeat by beating Marshall and all other competition to capture the Menomonee Falls Title.

The season came to its peak in successive meets as the Redcats showed balanced scoring to win both City and State meets. The strength and balance of this championship team is shown by the forty point margin of victory in the State Meet. This is the largest margin of victory ever in state gymnastics competition.

This team is no doubt the best Bay View has ever had and probably one of the best ever assembled on the high school level.

THE SOUND OF MUSIC

Maria and Capt. Von Trapp

Each spring at Bay View, the most talented students in the field of music take part in the operetta. *The Sound of Music* was chosen for this year's musical production. Under the direction of Mrs. Breitling, the entire cast gave a magnificent performance. The dancers, supervised by Miss Nelson, moved about with grace and ease. The musical efforts of Mr. Dietrich and his orchestra were to be commended. Lastly, Mr. Gifford's art and scenery crews combined precision and skill to produce striking scenery. These organizations and many others helped to further the operetta as a Bay View tradition, eagerly anticipated by the entire community.

The Oracle Annual and the Oracle newspaper were the efforts of Bay View students. Mrs. Hoernel and her efficient business staff took complete charge of payment and distribution of both publications. Under the guidance of Mr. Heiss, our newspaper was issued biweekly. The longest sustained publication was the yearbook. However, Mrs. Pieper was always on hand to aid and assist the staff when in need of help.

Each year, the Quill and Scroll awards are presented to students showing outstanding workmanship in the field of journalism. Each recipient of the award becomes a member of the international Quill and Scroll society.

The publications staff is divided into three branches: the newspaper staff, the annual staff, and the business staff.

The newspaper staff has worked hard throughout the school year in keeping Bay View well informed on the school's current affairs. The student body has benefitted through interesting reporting and increased editorial material.

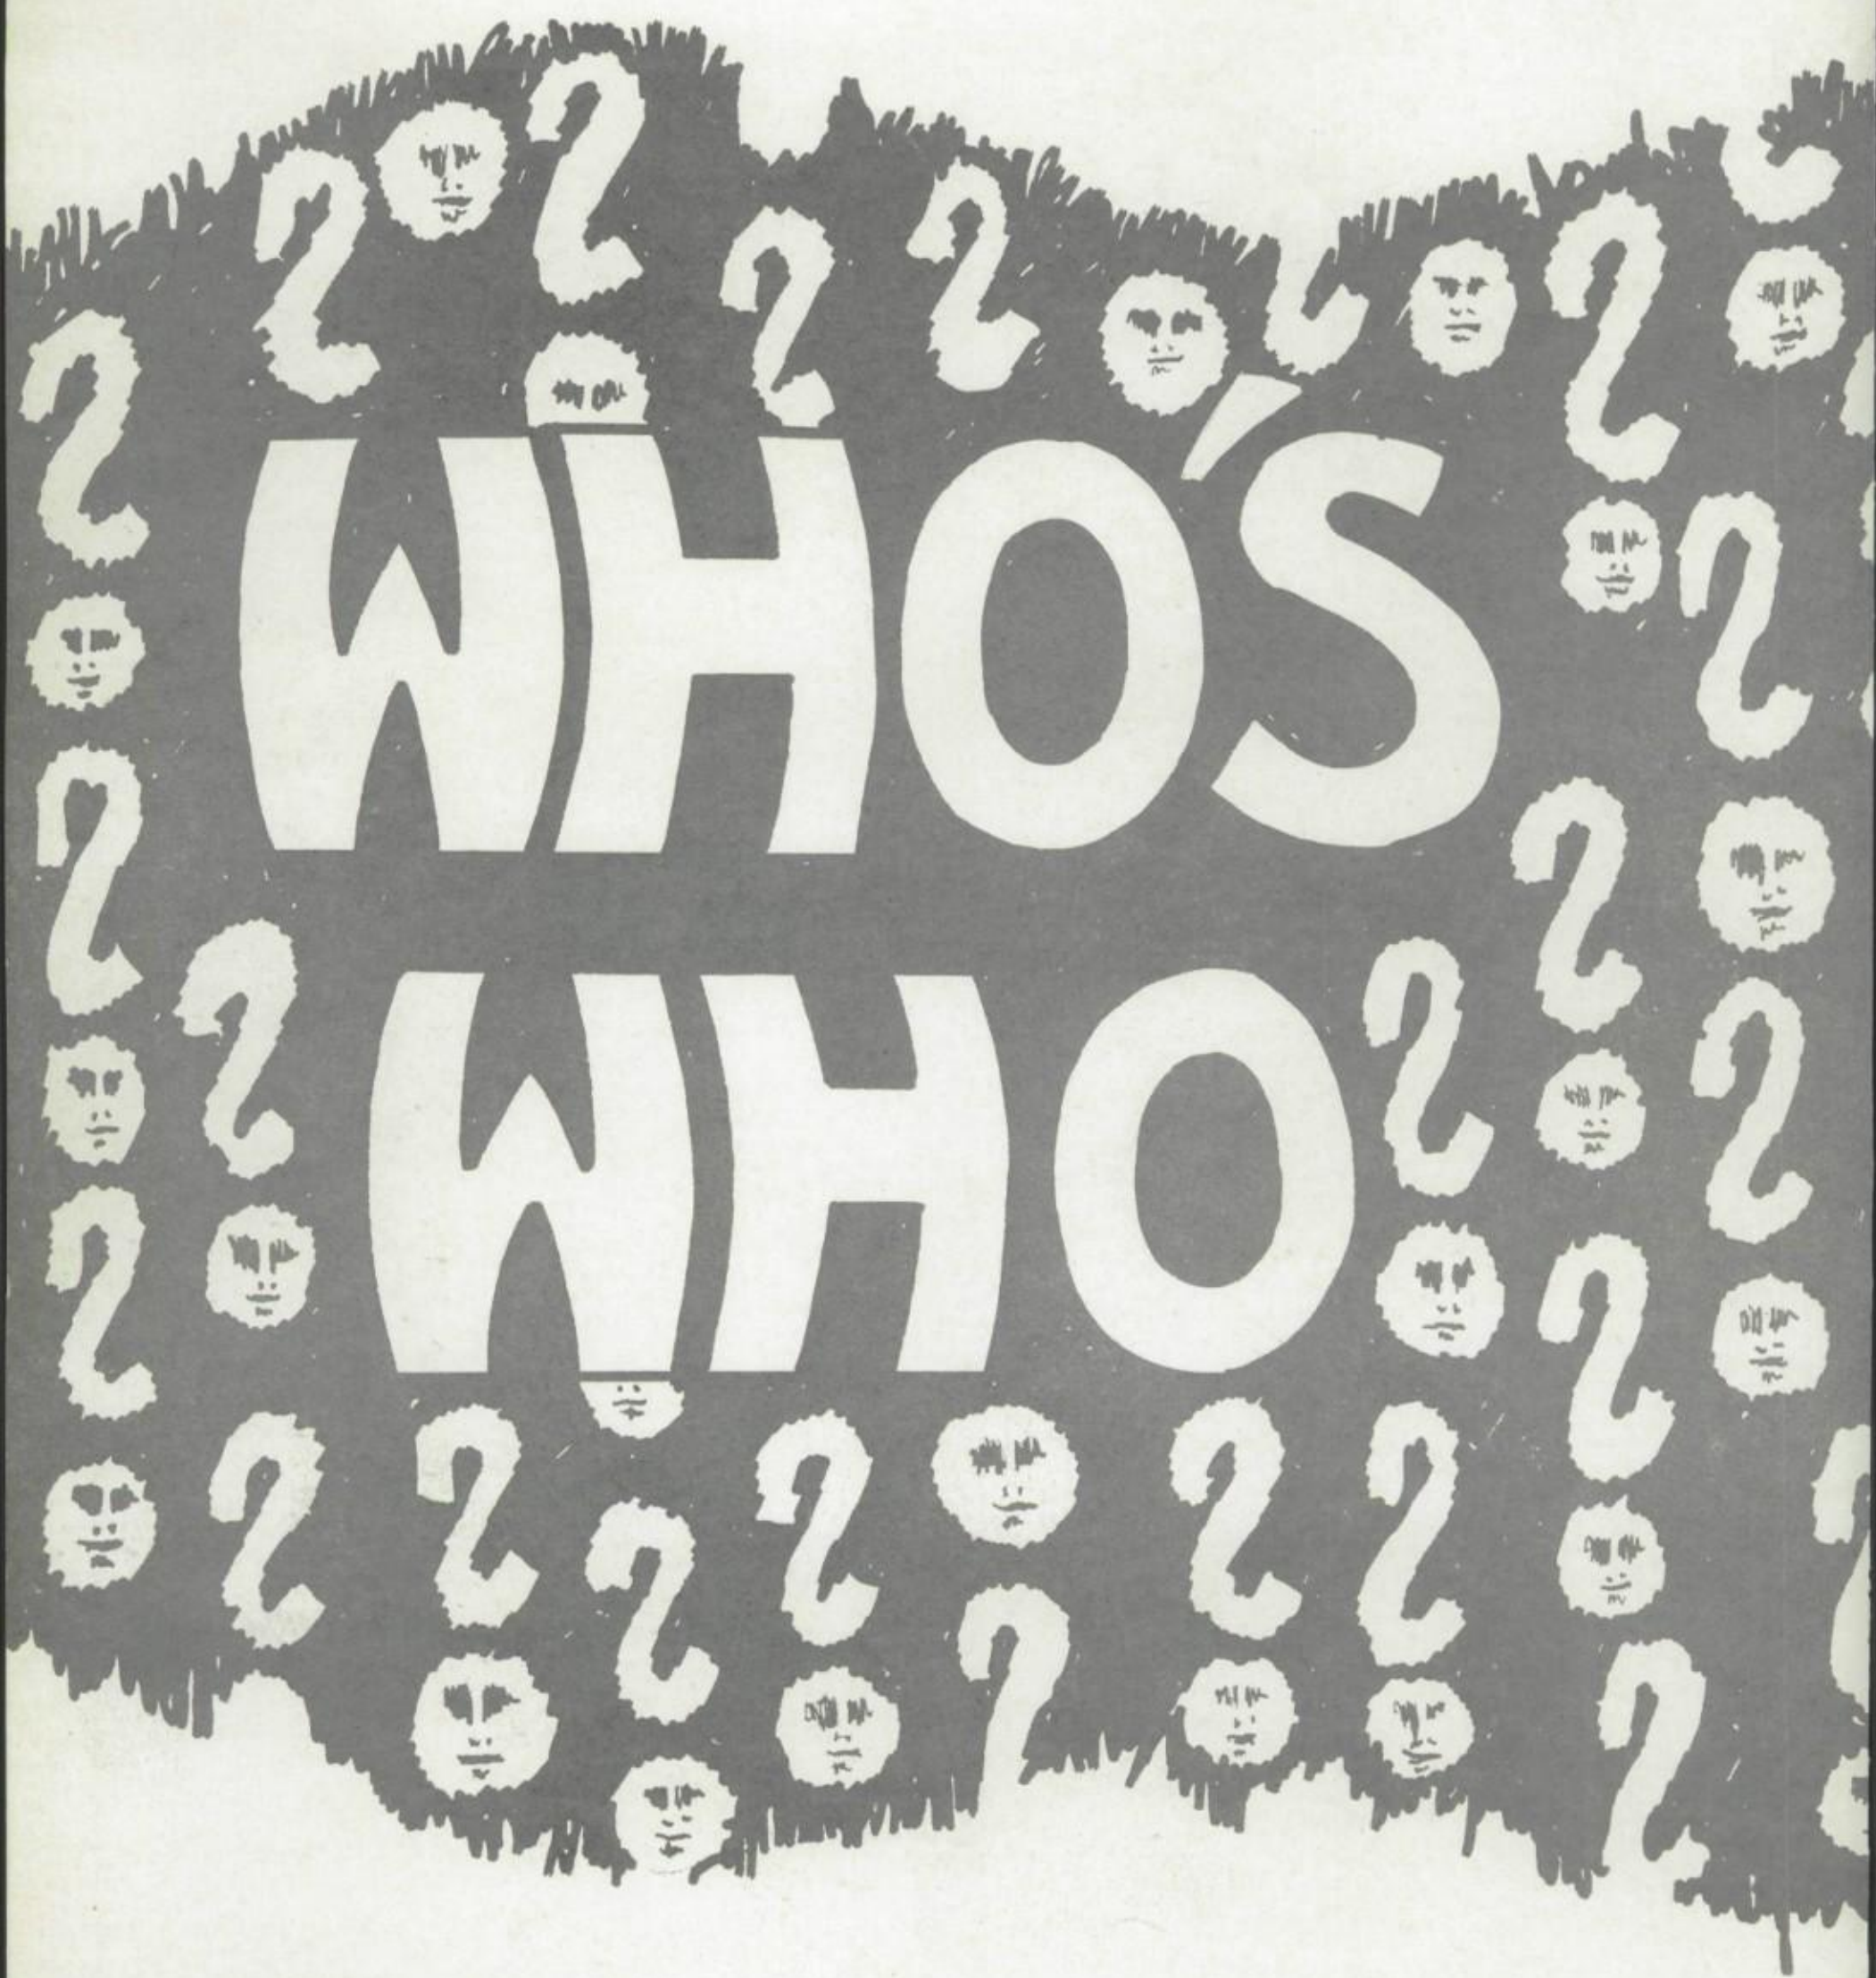

The annual staff has worked toward the publication of a single book summarizing the highlights of the school year. Reflecting the mood of Bay View's youth, the theme "Changing Times" was chosen for this year's annual.

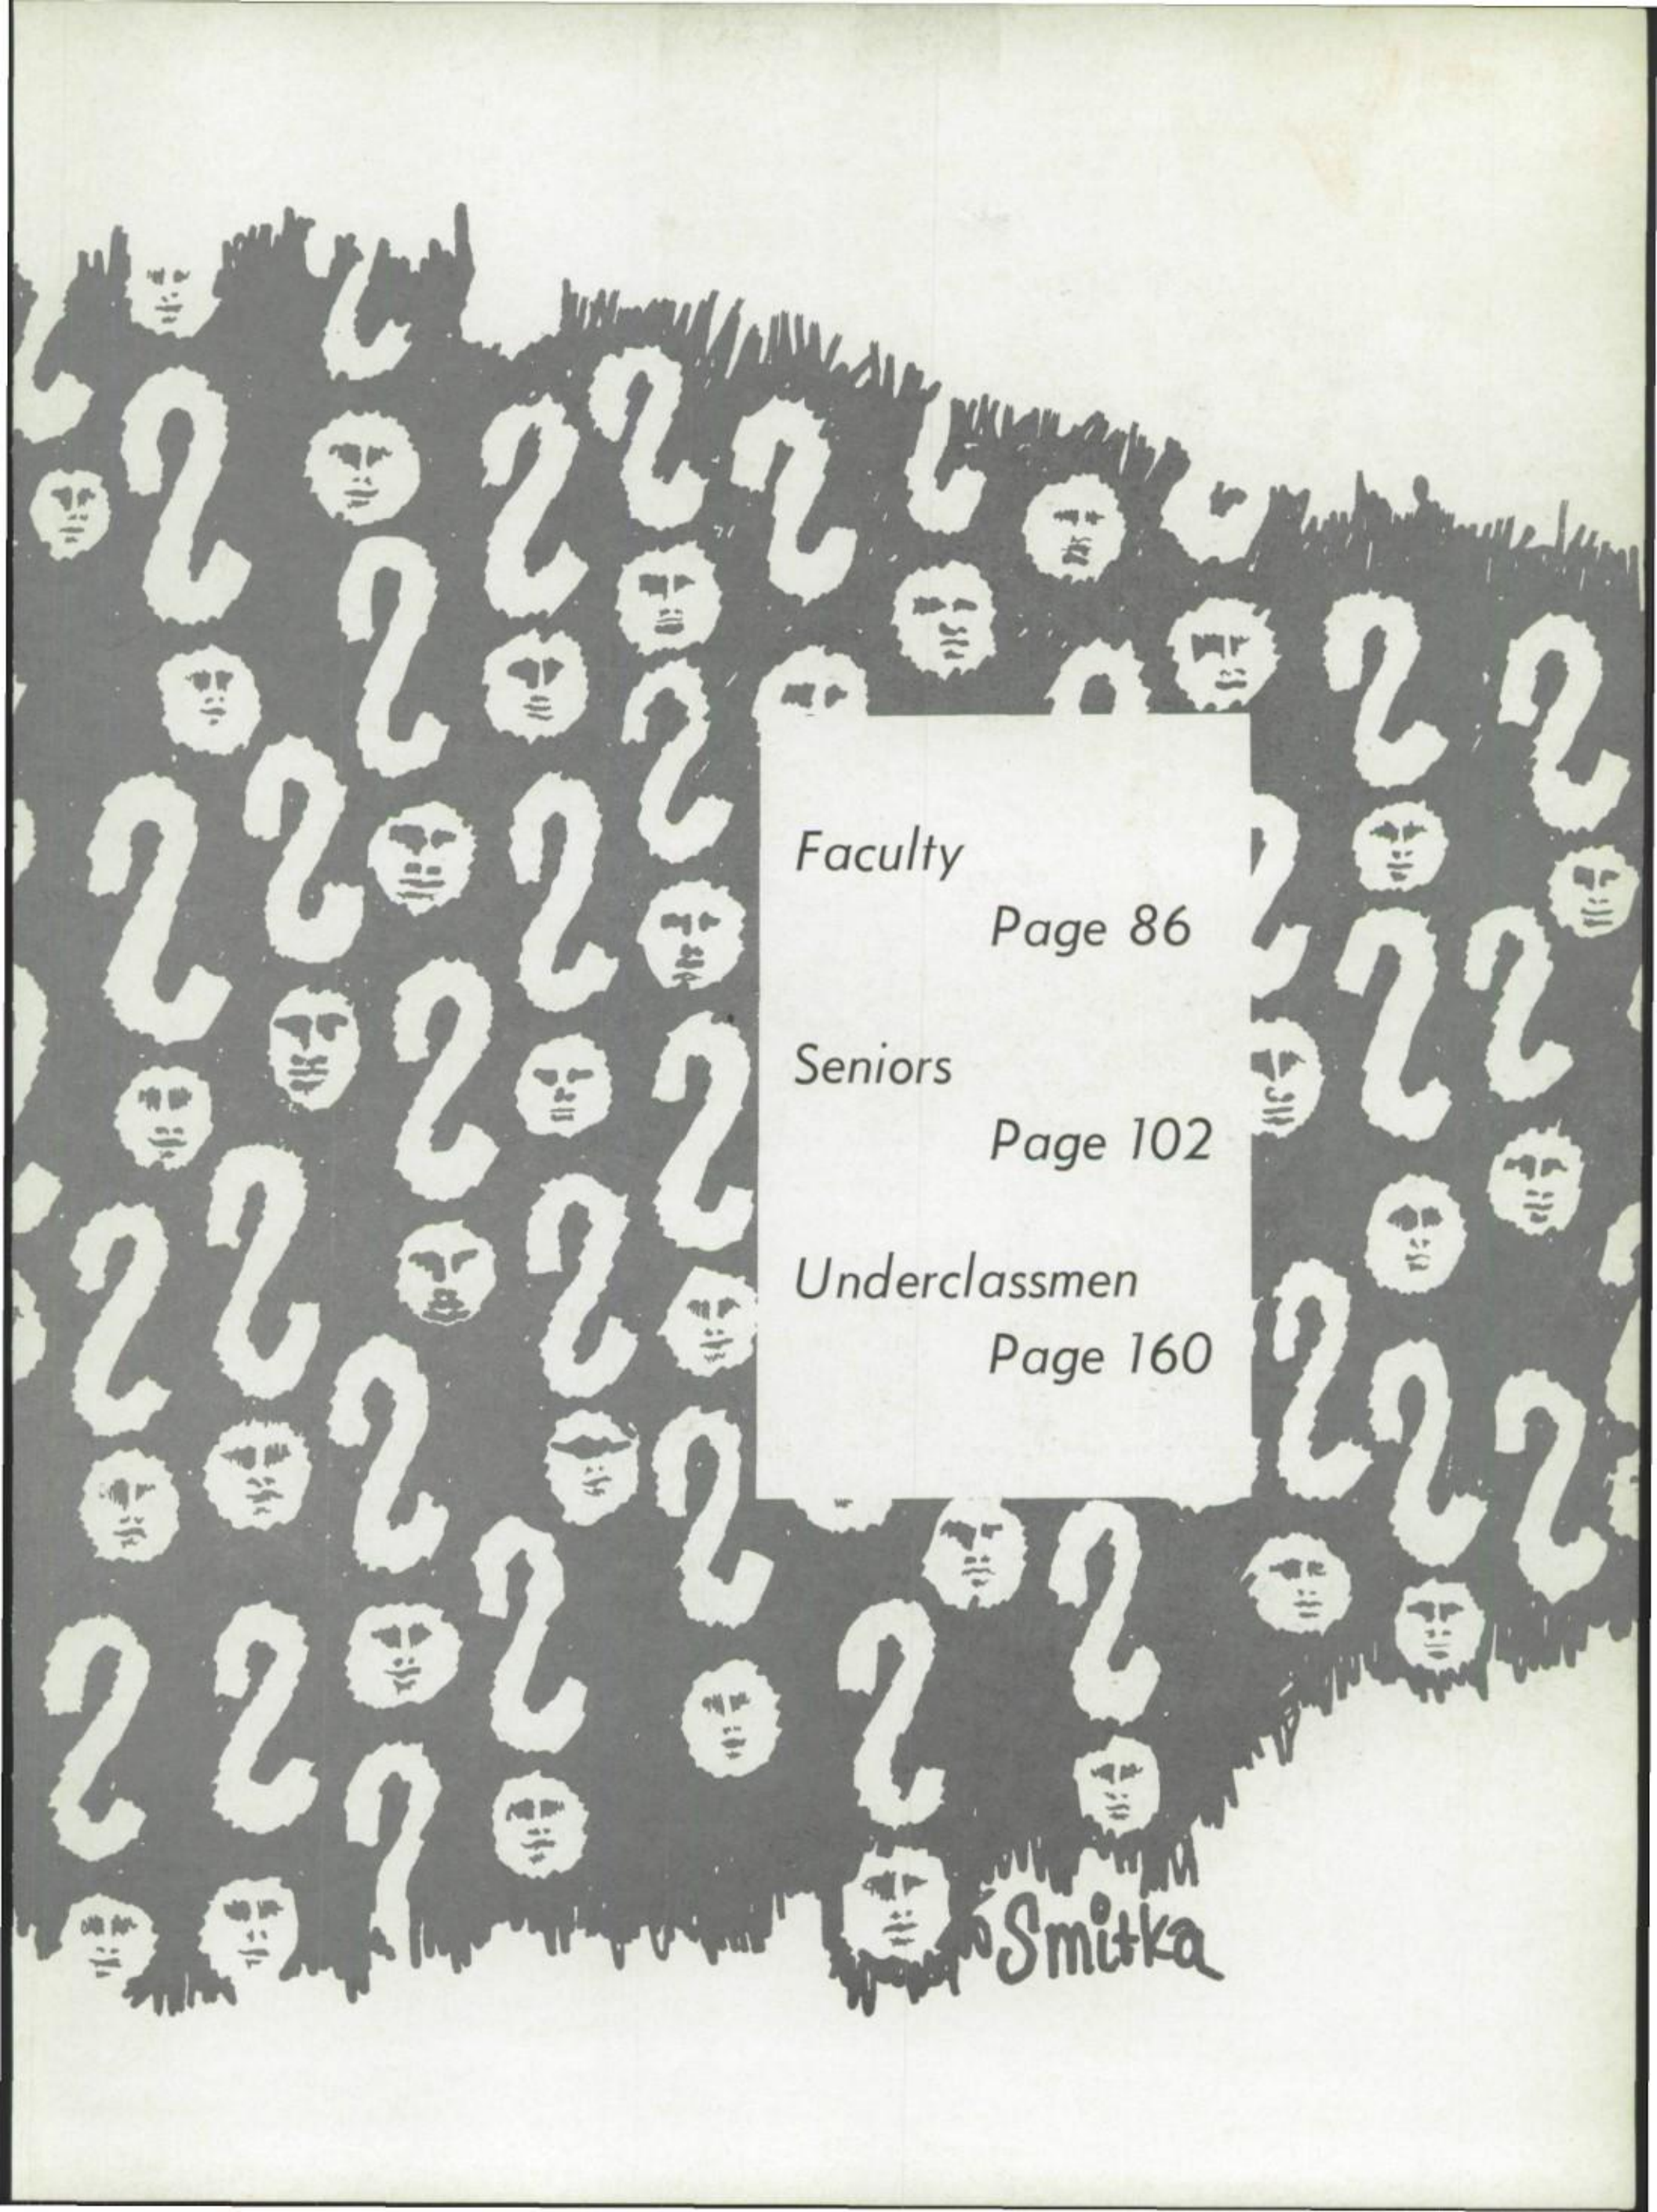

The business staff has been concerned with the advertising and monetary transactions for both the newspaper and the annual.

MR. SHOWERS, Principal

MR. WILLIAMS, Vice-Principal

The task of the administration is to prepare youth for the adult world. The administration, knowing that the youth of today is the key to the future, is dedicated to opening up that future.

The administrative duties are carried out by Mr. Showers, Mr. Williams, and Mr. Kaczmarek. Mr. Showers, as principal, is responsible for the functions of the entire school. Mr. Williams, vice-principal, is responsible for all attendance records. Another one of his duties is organizing extra-curricular activities and events and enforcing discipline in the school. Assistant to the principal, Mr. Kaczmarek, is the coordinator of all guidance activities. He prepares student classes and is in charge of financial aid to colleges.

Even before the student enters the Bay View High School, he and his parents have met a guidance counselor who has helped him plan his three years at senior high. This counselor together with his homeroom teacher assist him with his problems and his future plans. While the student is here, he receives knowledge of Milwaukee's job opportunities, the qualifications needed to fulfill a job, and the training available to prepare for specific jobs.

If interests are more academic, the student is advised about colleges, about requirements to enter college, about expenses involved, about scholarships available. He meets representatives from universities and colleges throughout the country. It is the counselors who make all these arrangements and give as much individual help as possible.

To achieve a true understanding and an appreciation of people, both near and far, requires communication. How else does communication occur but through language? Through speeches and discussions, oral communication is improved and good listening habits become established. Through composition, written communication becomes more precise, more thought provoking, more creative. Through literature the reader gains an appreciation of the beauty of his language, an understanding of himself, and a comprehension and sensitiveness to other people, both of his own country and foreign lands. The knowledge and ideas of the world, the aspirations and culture of others become alive.

Because science brings man into immediate touch with the universe; because biology, chemistry, physics form so large a part of human endeavor; because they are fundamental for so many fields of knowledge; science is a requirement in a student's life. Science prepares the way for man to explain and adopt the laws of this universe until he acquires mastery — intellectual and practical — over events. Continually looking to the future, promising opportunities without end, science intrigues and challenges the world of today.

In today's world with its problems and conflicts, the goal of social science classes is to analyze these problems. In history classes, students relate the causes and results of historical events to situations of today. Sociology students study the interaction of man in his environment. Economics students learn about the means and activities by which man earns a living. In contemporary world affairs classes, students strive to solve current problems on a local and national level.

Everyone is concerned with both the present and the future problems. Social science classes help students to understand the causes of past events and form principles to change the future through application of this knowledge to the present. In history classes, students analyze events of the past; in sociology, the interaction of man in his environment is studied; economics students learn of the means and activities by which man earns a living. Contemporary world affairs classes solve current problems through knowledge and comprehension gained in other classes. Awareness of present day difficulties is a key note of the social science department.

In a world that is becoming more and more aware of the importance of every tiny country and municipality, the study of foreign languages is more essential than ever before to the understanding of the cultures and customs of other people and other lands. The foreign languages offered—French, German, Latin, and Spanish—are among the most important of our world; and through the study of any one, an appreciation of another people, a neighbor, is gained.

MUSIC DEPARTMENT

MR. DIETRICH

MR. HEPNER

The Music Department at Bay View High School has gained much recognition and great prestige for its fine performances. The a cappella choir and the orchestra are ranked among the first in the state. All glee clubs, beginning and advanced, boys' and girls', have won awards. The band is asked to play at many community functions, its musical excellence being accepted.

The annual music festival was especially outstanding this year as was this year's operetta — *The Sound of Music*.

ART DEPARTMENT

The Art Department, while teaching students the principles of color and design, provides a channel for creative expression.

Many projects done in art classes, which range from Art I to Advanced art, ceramics, and industrial design, are entered in state and local competition. Several Bay View artists have been awarded prizes for their entries.

There are two groups that offer service to Bay View whenever there are projects that require artistic ability. The scenery crew works diligently for weeks preparing settings for the class play and operetta. The Art Club produces signs and posters publicizing events throughout the school year.

BUSINESS EDUCATION

It is the purpose of the business education department to give a background and understanding of business procedure and management. Typing, shorthand, stenography, and clerical practice aid a student in securing a clerical or secretarial position. A job in accounting requires a student to take sales, bookkeeping, and business law. The department also offers a cooperative training program in which business students receive on the job training for a career. This opportunity gives the student a chance to gain valuable experience in the vast field of business education.

Teaching the future homemakers of Bay View the art of managing a home is the job of the Home Economics Department. Besides the practical experience of cooking or sewing, a home ec major learns the intricacies of home management. The economics of buying, the budgeting of funds, the esthetics of home planning are all included, along with human relations and child psychology. Home economics is an important course in the curriculum at Bay View, since it involves skills necessary for the wife and mother of tomorrow.

Industrial Education is an integral and contributing part of the total educational program of the student today. By participating in courses of Industrial Education, the student receives a sampling of several major occupational areas as well as extensive and intensive training and experience in chosen fields of work. Through these courses the student is provided with some marketable skills and experience which form a basis of occupational employment. Interest in Industry, appreciation of good design, self-discipline, cooperative attitudes, and health and safety are the major objectives of the Industrial Education Department. To further extend its opportunities to the student, the Industrial Education Department has added a course in Aircraft Construction. This class has already built one aircraft and is in the process of constructing a second.

PHYSICAL EDUCATION

Physical education plays a special role in the character development of all high school students. The mental alertness necessary in academic courses depends on the physical soundness of the students.

Bay View prides itself with having a complete and varied course in physical education. Students participate, according to their abilities, in beginner's and advanced gym or swim. Classes in lifesaving, modern dance, and rhythmic are also offered, giving students an opportunity to choose activities which interest them.

The physical training which students receive in high school provides a better appreciation of the importance of both body and mind.

BAY VIEW TALENT ABOUNDS

On March 10, 1968, Bay View held it's first S.G.A. sponsored talent show. Bay View showed its talent in many different ways ranging from bands to modern dancers. Because of the fine quality of the show and the sell-out crowd, the talent show will surely become an annual event at Bay View.

Class A. Winner, The Lenox Street Entrance

Class A Runner-up, Mary Ann Scibek

IN MEMORIAM

Mr. Arthur Neurnberger will be missed both in the Bay View community and in the Bay View High School. He had helped in the building program of the American Legion Post 180, and had served as its Chaplain and as its Commander. Frequently, he acted as toastmaster, especially at Bay View banquets, where his cheerfulness, friendliness, and quick wit were readily apparent.

His co-workers remember him for his efficiency, his fairness, his pride in doing his work well. The faculty remember him for his helpfulness in making arrangements for banquets and parties, his quick service, his furnishing coffee and doughnuts. The students remember him for maintaining discipline, telling a quick story, and assisting in the canned food drive.

IN MEMORIAM

Mr. John Fritsche possessed a serenity of spirit and a quiet joy in living — a nature so truly noble and genial that friends and students alike recognized these qualities as the natural expression of a kind heart.

His biology students found in him a stimulating, knowledgeable teacher whose goal was to give them not only an excellent background in the field, but also a pattern of ideals to make life more meaningful.

He served Bay View conscientiously and well from 1941-1968, including the three years when he acted as studio teacher in biology on the educational television program of the Milwaukee high schools.

He will truly be missed by students and faculty alike.

What Will You Do After Graduation?

He's made *his* choice. He wants a career in chemistry. After high school, he plans to go on to college. Then, he'll be ready to apply what he's learned to the work he's already chosen for a lifetime occupation.

There's nothing unusual about that. Many young people decide on careers while they are still in high school. Some go on to college. Some move into apprentice programs. Others start right out on jobs.

The point is that you are free to chart a course for your own future. You may change your mind later—move to other jobs, other cities, even other occupations. But the choice is always yours.

That's something we take for granted. Yet in some countries, people don't have that kind of freedom. Government "planners" decide how many are needed for what occupations. The State channels students and workers into "appropriate" places.

Whether it's selecting an occupation, a place to live, or how to spend the money we earn, we enjoy the *right to choose*. That's a very basic freedom, and a fundamental part of what we call free enterprise.

AN END OR A BEGINNING?

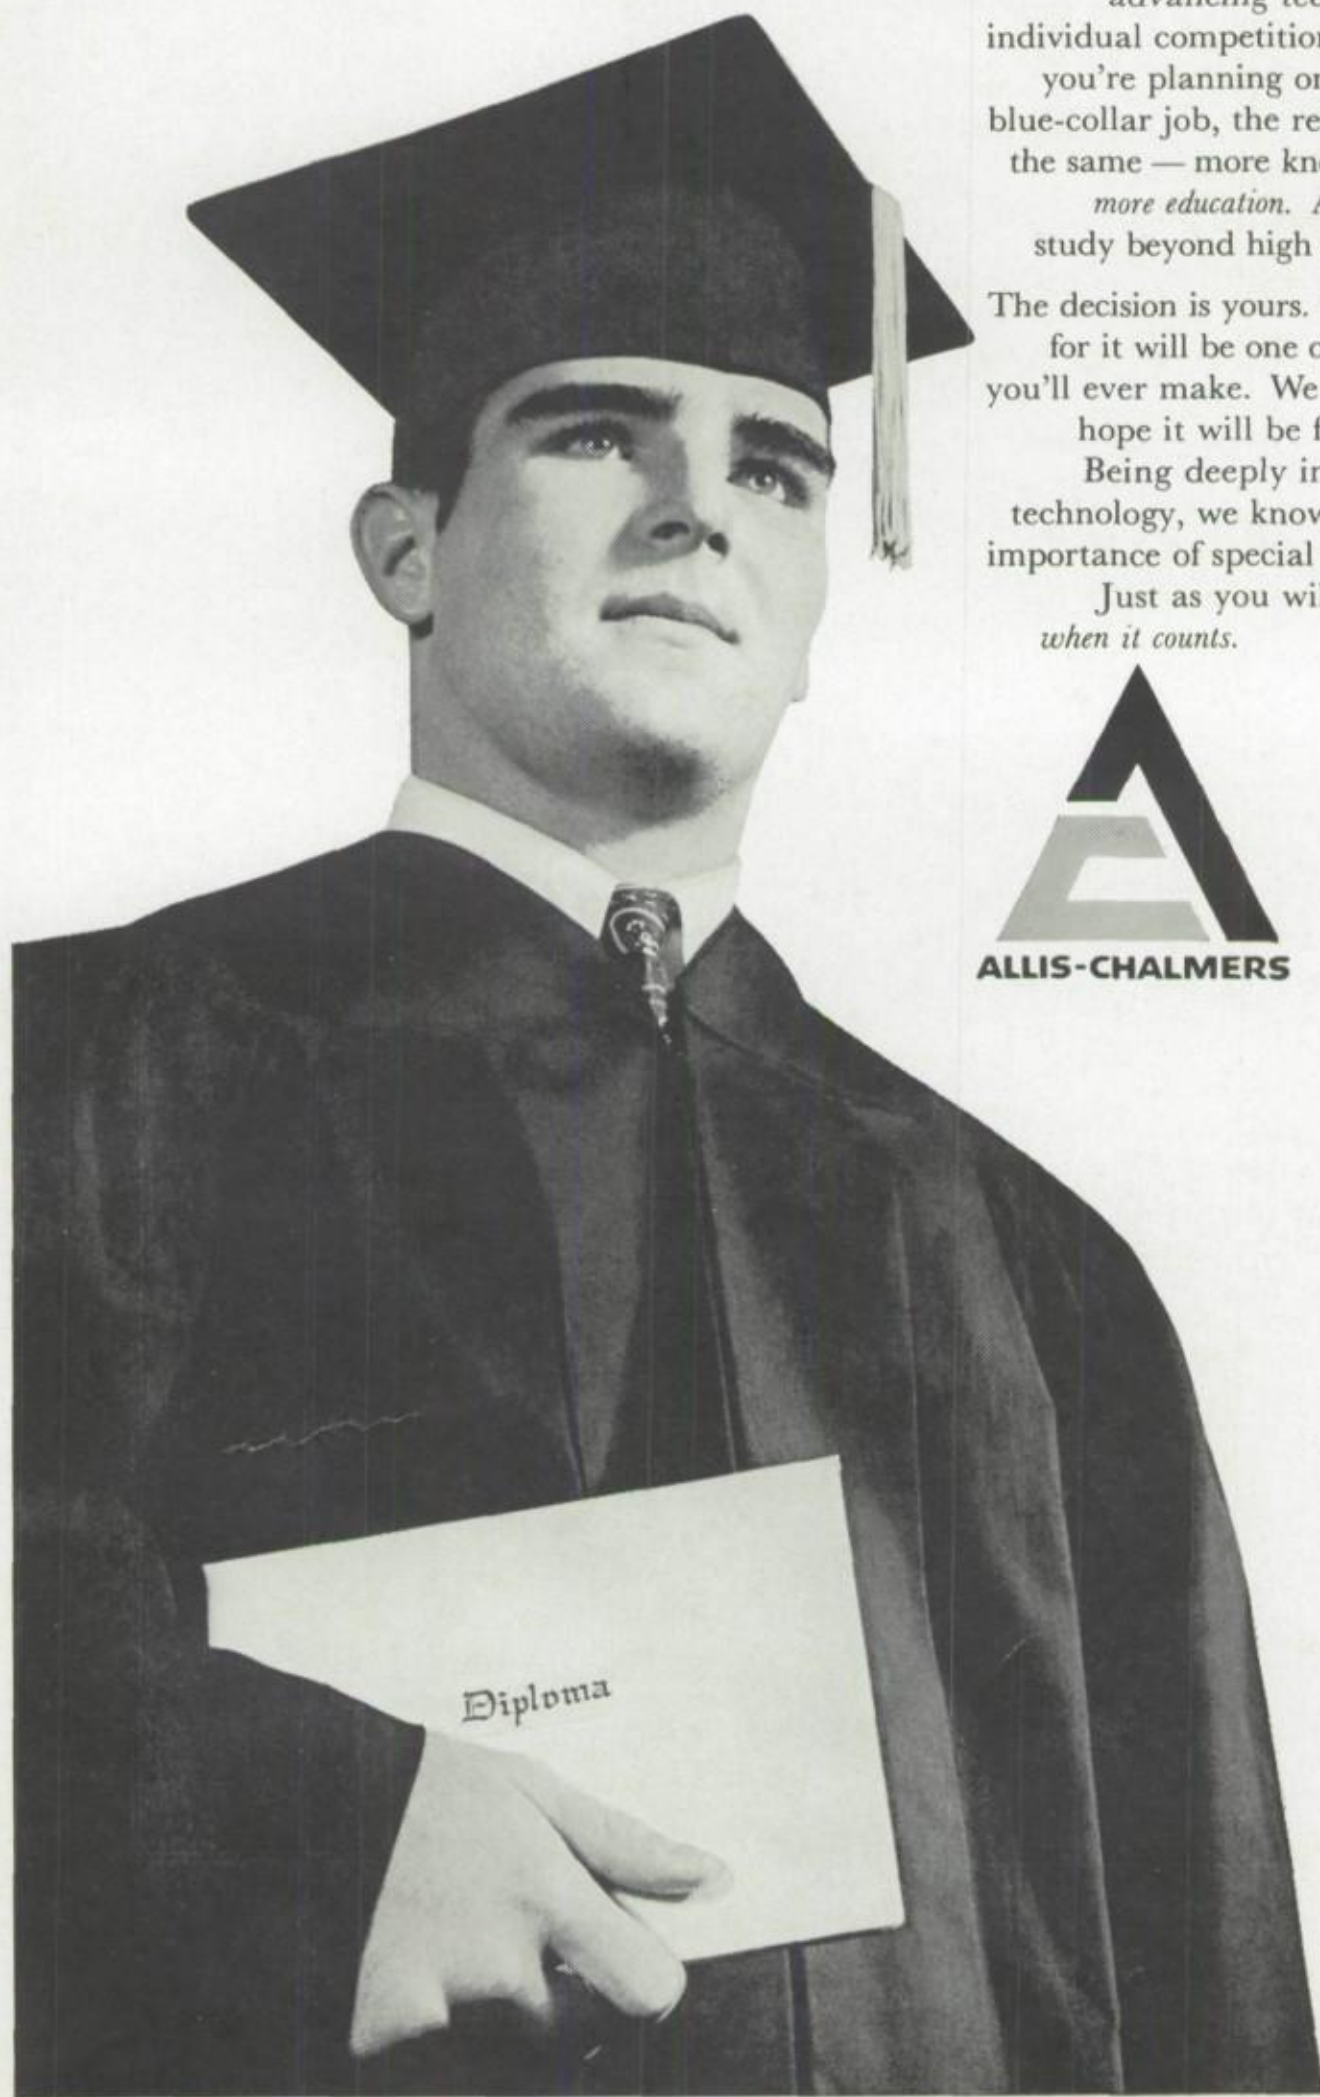

There was a time when a high school diploma could be considered an end — sufficient education for the job ahead. But no more.

Not in these days of ever-advancing technology and intense individual competition. Now, whether you're planning on a white-collar or blue-collar job, the requirements are much the same — more knowledge, more skills, *more education*. And that means study beyond high school.

The decision is yours. Make it carefully, for it will be one of the most important you'll ever make. We at Allis-Chalmers hope it will be for further study.

Being deeply involved in space-age technology, we know first-hand the importance of special skills and education.

Just as you will, in the future — *when it counts.*

Another school year has drawn to a close. For many Bay View students, it has been the last year of formal education. For others, high school has been a stepping-stone to further education. As time passes, our years of high school will be only a memory, a memory that will bring pleasant thoughts and laughs.

Soon the summer will be over and school will begin anew. New seniors, juniors, and sophomores will continue the education in the old red building on Lenox Street.

This closing is more than a simple ending to a yearbook. It is a tribute to three years spent in the halls of Bay View High School. It is actually the closing of a chapter in a senior's book of life.

Bonnie
Well... it's all
over - this year -
Next year everyone just
will be so jealous of us!
But since we'll have
killed all the girls
we left. So you
love,
June

Hi Bon!

Well, I know I'll be
seeing all the time this summer.
It's really been a great year!
We kept blabbering at the
lunch table & in English.
Great, hey? Take care!

Love always,
Mary Peck

So a very nice
girl! I know from
the dances and church?
Good luck in everything you do.
Have a safe summer and hope
to see you around.
